DATE MAILED:

**Please find below and/or attached an Office communication concerning this application or proceeding.**

**Commissioner for Patents**

Pursuant to Mr. Tassone's telephone message of 25 April 2005, the examiner has carefully reviewed her office action of 25 April 2005 and the eDAN file for this case.

That review is the basis for the following comments:

1. The revised declaration submitted on 17 September 2004 was posted in eDAN as of 20 September 2004. While it corrected the parent application's serial number (i.e., to "10/071,634") it recited its status as "pending", which was not accurate in September, 2004. SN. 10/071,634 was abandoned in August, 2004 (Notice of Abandonment mailed 10 August 2004).
2. The revision to page 1 of the specification, dated 07 October 2004 in eDAN, corrected the parent application's serial number, but did not add its status (i.e., "now abandoned").

Note: It is believed that the changes made/suggested in the Examiner's Amendment prepared on 25 April 2005 will correct any deficiencies remaining in the record concerning the parent application and its status.

3. The IDS submitted on 07 April 2005 was acknowledged in the 25 April 2005 Notice of Allowability.

As the record is now understood by the examiner, no further telephone interviews are warranted.
